Delegation Best Practices and Principles

The following points are best practices and principles gleaned from our review of other universities and university systems and have been included as general parameters for consideration by boards of trustees when undertaking a review of presidential delegations of authority.

- All delegations should be in writing, maintained by a central office at the university, and at least a summary should be publicized on the university’s website.
- Authority for matters that require specific approval of the board of trustees may not be re-delegated. (Note: This determination may require assessment of language as well as Board of Governors’ practice, as designee language is not consistently used when allowed. Areas where Board of Trustee approval is required includes, but is not limited to, strategic plans, work plans, debt management, public-private partnerships, new degree programs, budgets, regulations, naming of buildings, educational sites, and establishing direct support organizations.)
- Generally, delegations of authority “flow down” through the chain of command. The Board delegates authority to the President, who delegates to a direct report, etc.
- Each delegation should include the source of the delegated authority, a description of or reference to the delegated authority, limitations including restrictions on re-delegation, and a reference to any existing delegations that will be modified, amended, or superseded by the action.
- Delegations should be made to a position (or position and individual while incumbent) not an individual.
- Re-delegated authority must note the original delegation, be consistent with the conditions of the original delegation, and reported to the board of trustees.
- Delegation or re-delegation is prohibited if the delegate holds a specific or unique individual conflict of interest or the appearance of a conflict (e.g., based on the individual’s financial interests), or if such a conflict or appearance of a conflict develops or occurs. If such a conflict of interest or the appearance of a conflict arises once the delegation or re-delegation is in effect, the delegate or the delegate’s supervisor must manage the conflict. If the conflict of interest or the appearance of a conflict persists, the delegation or re-delegation should be withdrawn.
- Consider whether a delegation should be converted to a role or responsibility and incorporated into an employee’s job description.
- Establish a deadline for a periodic Board review of all delegations, including benchmarking.
University President Duties and Responsibilities

The President shall serve as the Chief Executive Officer and Corporate Secretary of the Board of Trustees, and shall be responsible for the operation and administration of the University consistent with the authority delegated as may be made by the Board of Trustees from time to time. In carrying out these duties and responsibilities, the President shall:

(1) University Administration and Oversight.

(a) Organize the University to efficiently and effectively achieve its goals, and periodically review and provide reports to the Board of Trustees on University operations in order to determine how effectively and efficiently the University is being administered and whether it is meeting the strategic goals of the University, including the goals of its strategic plan adopted by the Board of Governors and other strategic goals for advancement of the University endorsed by the Board of Trustees.

(b) Prepare a strategic plan in alignment with the Board of Governors' system wide strategic plan and regulations, and the University’s mission for consideration and approval by the Board of Trustees for submission to the Board of Governors.

(c) Prepare a multi-year workplan for consideration and approval by the Board of Trustees for submission to the Board of Governors that outlines the University’s top priorities, strategic directions, and specific actions and financial plans for achieving those priorities, as well as performance expectations and outcomes on institutional and system wide goals. The workplan shall reflect the University’s distinctive mission and focus on core institutional strengths within the context of State University System goals and regional and statewide needs, as well as national and global needs as applicable to the University’s mission.

(d) Prepare and periodically update a policy addressing conflicts of interest for the Board of Trustees and University employees.

(f) Take routine administrative actions on behalf of the Board of Trustees related to the development, adoption, amendment or repeal of University regulations, or any action required under the Florida Administrative Procedures Act, Chapter 120, Florida Statutes. This authority does not include the final approval of University regulations.

(g) Propose regulations for approval by the Board of Trustees, when appropriate.

(h) Establish procedures related to data and technology, including information systems, communications systems, computer hardware and software, and networks.
(i) Secure comprehensive general liability insurance pursuant to sections 1001.706(4)(d) and 1004.24, Florida Statutes.

(j) Provide for payment of the cost of civil actions against officers, employees, or agents of the Board of Trustees.

(k) Govern traffic on the grounds of the University and in other areas in accordance with law and any mutual aid agreements entered into with other law enforcement agencies.

(l) Establish the program for campus safety and emergency preparedness, including safety and security measures for University personnel, students, and campus visitors.

(m) Close all or portions of the University campus and cease normal operations and services in the event of an emergency, when, in the President's judgment, such action would protect the safety, health and welfare of the University faculty, students and staff, and the University facilities and grounds. In exercising this authority, the President is authorized to determine and assign those employees who are required to provide essential services.

(n) Consult with the Chancellor of the State University System prior to recommending any acquisition, establishment, reclassification, relocation, or closure of additional campuses or special purpose centers to the Board of Trustees.

(o) Set the agenda for meetings of the Board of Trustees in consultation with the chair.

(p) Consult with the Board of Trustees in a timely manner on any matters appropriate to its policy-making and fiduciary functions.

(2) Academic Programs and Student Affairs.

(a) Propose for adoption by the Board of Trustees, as appropriate, University regulations or policies in areas including, but not limited to:

1. Authorization and discontinuance of degree programs;
2. Articulation and access;
3. Admission and enrollment of students;
4. Minimum academic performance standards for the award of a degree;
5. Student financial assistance;
6. Student activities and organizations;
7. Student records and reports;
8. Antihazing, related penalties, and program for enforcement;
9. Reasonable accommodation of religious observances;
10. Textbook and instructional materials affordability; and
11. Uniform Student code of conduct and related penalties.

Such regulations or policies shall be consistent with any applicable Board of Governors' regulations.
(b) Develop, approve, and implement non-degree, including non-college credit, granting educational programs of the University.

(c) Award degrees, including posthumous, in memoriam and honorary degrees.

(d) Develop, approve, and implement student exchange programs, including without limitation those that are ancillary to the degree and non-degree, including non-college credit, granting programs of the University.

(e) Establish the internal academic calendar of the University within general guidelines of the Board of Governors.

(f) Establish a committee to periodically review and evaluate the student disciplinary system. At least one-half of the members of the committee shall be students appointed in consultation with the student body president.

(g) Approve the internal procedures of student government organizations.

(h) Approve the establishment of an educational research center for child development in accordance with the provisions of section 1011.48, Florida Statutes.

(i) Administer all aspects of the University intercollegiate athletics program, with periodic reports to the Board of Trustees on the operations of the program including, but not limited to, finances, audit and compliance, and changes in key personnel.

(3) Personnel.

(a) Establish and implement policies and procedures to recruit, appoint, transfer, promote, compensate, evaluate, reward, demote, discipline, and remove personnel, in accordance with regulations and policies of the Board of Trustees and the Board of Governors.

(b) Consult with the chair of the Board of Trustees, or other trustee designee, on the hiring, dismissal, and compensation of any person to serve in a Vice President capacity, as the Athletic Director, or as a Head Coach, or other executive direct report position to the President or the Board of Trustees. The following positions shall have a reporting relationship to the Board of Trustees in addition to reporting to the President: the General Counsel, the Chief Audit Executive and the Chief Compliance Officer. **USF Proposal:** The President shall consult with the chair of the Board on an annual basis to review the positions covered by this provision and amend the list based on the mission and strategic priorities of the University. **(Note: Larger institutions may want to consider whether to establish a monetary threshold in connection with the hiring of an Athletic Director and Head Coach that would trigger a requirement to consult with the trustee chair. UF is considering a $1 million annual compensation threshold that would trigger the requirement to confer with the trustee chair and to notify the trustee vice chair.)**
(c) Approve travel in accordance with section 112.061, Florida Statutes.

(d) Serve as the University representative with regard to administering collective bargaining matters; appoint members to the collective bargaining teams to negotiate agreements on behalf of the Board of Trustees; and execute on behalf of the Board of Trustees' final agreements approved by the Board of Trustees after ratification by collective bargaining units.

(a) Keep the Board of Trustees apprised of the financial condition of the University and any direct support organizations certified by the Board of Trustees or affiliated organizations subject to the oversight of the Board of Trustees.

(b) Prepare an institutional budget request, including a request for fixed capital outlay, and an operating budget for approval by the Board of Trustees.

(c) Recommend to the Board of Trustees a schedule of tuition and fees to be charged by the University in accordance with the provisions in section 1009.24, Florida Statutes.

(d) Recommend to the Board of Trustees a regulation for the waiver for tuition and fees pursuant to law and regulations established by the Board of Governors.

(e) Account for expenditures of all state, local, federal, and other funds in accordance with guidelines or regulations established by the Board of Governors, and as provided by state or federal law. (Note: This captures existing accounting requirements, as regulatory and professional authorities may amend them over time.)

(f) In accordance with the provisions of section 1011.40, Florida Statutes, prepare the operating budget of the University as prescribed by law, regulations of the Board of Governors, policies of the Board of Trustees, and provisions of the General Appropriations Act, for approval by the Board of Trustees. The proposed expenditures, plus transfers, and balances shall not exceed the estimated income, transfers, and balances. The budget and each part thereof shall balance. If at any time the unencumbered balance in the education and general fund of the Board of Trustees approved operating budget goes below 5 percent, the President shall provide written notification to the Board of Governors.

(g) Enter into agreements for, and accept, credit card payments as compensation for goods, services, tuition, and fees.

(h) Establish policies and procedures for the performance of annual internal audits of University finances and operations. All reports generated from such audits must be submitted to the Board of Governors after review and acceptance by the Board of Trustees.
(i) Establish policies and procedures for the implementation of appropriate financial controls, with review by the University's internal auditor.

(j) Sign checks to pay legal obligations of the University in accordance with section 1011.42(7), Florida Statutes.

(k) Perform banking transactions, which authority may also be delegated to the Vice President and Assistant Vice President for Administration and Finance, the University Controller and Associate Controller, the University Treasurer, and other positions deemed by the President or senior designee reporting to the President to have responsibility for financial matters.

(l) Employ private attorney services after consulting with the university's General Counsel.

(m) Employ the services of collection agencies when deemed advisable in collecting delinquent accounts and charging off and settling accounts when uncollectible. The President will annually report the status of accounts receivable charge-offs to the Board, which may be provided through the university's financial statements or reports.

(n) Ensure the Board of Trustees is presented with sufficient information for prudent decision-making for projects subject to the Board of Governors Debt Management Guidelines and Public-Private Partnership Guidelines, and University guidelines.

(5) Property and Purchasing.

(a) Administer a program for the maintenance and construction of facilities pursuant to Chapter 1013, Florida Statutes; certify to the Board of Governors or Department of Education, as requested, a project's compliance with the requirements for expenditure of Public Education Capital Outlay funds.

(b) Act for the Board of Trustees as custodian of all University property.

(c) Approve and execute contracts for purchase, sale, lease, license, or acquisition of commodities, goods, equipment, and contractual services, leases of real and personal property, and construction in accordance with Board of Governors' regulations. The acquisition may include purchase by installment or lease-purchase. Such contracts may provide for payment of interest on the unpaid portion of the purchase price. (Note: This paragraph groups together categories that are separate and distinct in nature, e.g., goods and services and leases. Monetary thresholds and/or term limitations for contracts for goods and services and leases will vary depending upon the size and complexity of a university. The thresholds and/or term limitations set forth below are examples derived from other universities that vary in size and complexity and are simply intended to help inform the boards of trustees' discussion on this topic.)

- Examples of monetary and term limitations are:
- Purchases of goods and service not to exceed $500,000 (Illinois State University);
- Purchases of goods and services not to exceed $1,000,000 (University of Minnesota);
- All contracts with a total cost or monetary value not to exceed $1,000,000, including all potential renewals (University of Texas) (Note: Board of Governors' regulations dealing with construction contracts include a delegation of authority to university presidents to execute contracts for projects up to $2,000,000);
- Purchases of goods and services not to exceed $2,500,000 (University of Texas and this is being increased to $5,000,000);
- Purchases of goods and services at the University of Michigan, Pennsylvania State and Ohio State have no monetary threshold for President;
- UF is considering requiring approval of the UF Governance Committee for purchases of goods and services that are: ≥ $10,000,000 total value & ≥ $2,000,000 per year average/or > 10 years with exclusivity;
- USF is considering requiring approval by the Finance Committee Chair of any contracts for goods and services that exceed $1,000,000. The value of the contract will be determined at the time of execution; however, subsequent amendments within the same fiscal year to the same contract will be added to the original contract amount to determine if an approval threshold is met. Contracts related in scope shall be aggregated for the purposes of approvals and reporting. In the event the Finance Committee Chair has a conflict of interest regarding a proposed contract for goods and services that is submitted for approval, then the chair of the Board shall appoint an individual trustee to review the contract in question. Contracts for goods and services equal to or greater than $2,000,000 require approval by the Finance Committee. In consultation with the President, the Finance Committee will review approval thresholds for contracts for goods and services on an annual basis and revise the thresholds as needed. The President, or designee, will provide a list of contracts at or exceeding the $1,000,000 threshold as an informational item to the Finance Committee on a quarterly basis.
- Leases of real property with an annual lease payment not to exceed $1,000,000 (California State);
- Leases of real property and easements if the amount to be paid by or to the university does not exceed $1,250,000 (University of Minnesota);
- Leases of real property that do not exceed 10 years or 50,000 square feet (University of Michigan);

- The president is authorized to approve and execute real property rental agreements, leases, ground leases, and other documents pertaining to the use of rental property for university-related purposes with a term of not more than 20 years (excluding options when the university is lessee, but including options provided by the university as lessor) (University of California); and
- Lease agreements with a term of 20 or more years or with options that result in a potential term of 20 or more years require board approval (California State).
UF is considering requiring board approval for leases that exceed 10 years or 50,000 square feet or $10,000,000 net present value.

(d) In accordance with the provisions of section 1013.48, Florida Statutes, approve change orders in the name of the Board of Trustees for amounts not exceeding $______. All such approvals shall be for the purpose of expediting the work in progress and shall be exercised in accordance with the President's further delegation of change order approval authority to the Office of Administration and Finance. The President or designee may make change orders for an amount exceeding $______ after consultation and approval of the chair of the Finance Committee. Change orders exceeding $______ require the prior approval of the Finance Committee. All change orders shall be reported to the Board and entered into the official minutes as soon as practicable at a regular meeting of the Board. (Note: Monetary thresholds for change orders will vary depending upon the size and complexity of the university. The thresholds set forth below are examples derived from other universities that vary in size and complexity and are simply intended to help inform the boards of trustees' discussion on this topic.)

- Change orders less than $250,000 (FAMU);
- Change orders not exceeding $100,000 (UNF);
- Change orders not exceeding 10% of the contract (Penn State);
- UF is considering not exceeding 10% of the Guaranteed Maximum Price, with anything change order exceeding 10% to require approved by the UF Finance and Facilities Committee;
- USF is considering requiring approval by the Finance Committee Chair of change orders exceeding either $1,000,000 or 10% of the Guaranteed Maximum Price, whichever is less. The value of the change order will be determined at the time of execution; however, subsequent change orders within the same fiscal year to the same project will be combined to determine if an approval threshold is met. Change orders for projects related in scope shall be aggregated for the purposes of approval and reporting. In the event the Finance Committee Chair has a conflict of interest regarding a proposed change order that is submitted for approval, then the chair of the Board shall appoint an individual trustee to review the change order in question. Change orders equal to or greater than $2,000,000 require approval by the Finance Committee. In consultation with the President, the Finance Committee will review approval thresholds for change orders on an annual basis and revise the thresholds as needed. The President, or designee, will provide a list of change orders at or exceeding the $1,000,000 threshold as an informational item for the Finance Committee on a quarterly basis.

(e) Regulate the use, maintenance, protection, and control of, and the imposition of charges for, University-owned or University-controlled buildings and grounds, property and equipment, name trademarks and other proprietary marks, and the financial and other resources of the University.
(f) Adjust property records and dispose of state-owned tangible personal property in the University's custody in accordance with the procedures established by the Board of Trustees. Notwithstanding the provisions of section 273.055(5), Florida Statutes, all moneys received from the disposition of state-owned tangible personal property shall be retained by the University and disbursed for the acquisition of tangible personal property and for all necessary operating expenditures. The University shall maintain records of the accounts into which such moneys are deposited.

(g) Protect, develop, and transfer the work products of University personnel and other University agents and contractors, which authority shall include but not be limited to licensing, assigning, selling, leasing, or otherwise allowing the use of or conveying such work products and securing and enforcing patents, copyrights, and trademarks on such products.

If the property is not claimed by the owner within 30 days after it is found, or a longer period of time as may be deemed appropriate by the President, the President or his or her designee shall dispose of or make use of the property in accordance with established policies and procedures that best meet the needs of the University.

(i) Prepare a campus master plan for adoption by the Board of Trustees, prepare a campus development agreement for execution by the Board of Trustees, pursuant to section 1013.30, Florida Statutes, and report on progress under the Master Plan.

(j) Recommend for adoption and promulgation by the Board of Trustees, regulations establishing basic criteria related to procurement, including procedures and practices to be used in acquiring commodities and contractual services, in accordance with Board of Governors' regulations.

(k) Exercise responsibility for the fire safety and sanitation of public educational and ancillary plants.

(6) Miscellaneous Powers and Duties.

(a) In accordance with section 1004.28, Florida Statutes, and Board of Governors' regulation, recommend to the Board of Trustees for final approval, the creation and certification, as well as the decertification and dissolution, of direct support organizations, and any other affiliated organization of the University whose authorizing legislation, bylaws or agreement with the University so requires, in order to serve the needs or further the interests of the University.

(b) Appoint a representative to the governing boards of each direct support organization or any other affiliated organization of the University. Prior to appointing representatives to the governing boards of direct support organizations or any other
affiliated organization of the University, the President shall consult with the chair of the Board, or other trustee designee. Note: In addition to the foregoing, UF is proposing ratification of the President's appointments by the UF Board for direct support organizations or affiliated entities such as the UF Foundation, the UF Research Foundation, the UF Development Corporation, the UF Investment Corporation, the UF University Athletic Association, Shands entities, and the Boosters.

(c) Accept gifts, grants, bequests, and devises on behalf of the university.

(d) In accordance with the terms specified by the donor, to designate the purpose for which, and the location at which, the income and/or principal of a gift shall be used and to make allocations in accordance therewith.

(e) To determine, consistent with any expressed intent of the donor, the purpose for which and the location at which a gift shall be used, to determine whether income and/or principal shall be used, and to make allocations and reallocation in accordance therewith, to the extent not specified by the donor of a gift.

(f) Establish policies regulating the administration and operation of the University Division of Sponsored Research. The President, or his or her designee, is authorized to negotiate, enter into, and execute research contracts; to solicit and accept research grants and donations; and to fix and collect fees, other payments, and donations that may accrue by reason thereof. The President or his or her designee may negotiate, enter into, and execute contracts on a cost-reimbursement basis and may provide temporary financing of such costs prior to reimbursement from moneys on deposit in a sponsored research development fund, except as may be prohibited elsewhere by law.

(g) All purchases of a division of sponsored research shall be made in accordance with the policies and procedures of the University and the purchasing regulations of the Board of Governors; however, upon certification addressed to the President that it is necessary for the efficient or expeditious prosecution of a research project, the President may exempt the purchase of material, supplies, equipment, or services for research purposes from the general purchasing requirement of the Florida Statutes.

(h) Comply with all applicable laws, rules, regulations, and requirements.

(i) Minimize university risk and manage the university's risk management program.

(j) Delegate in writing to any employee of the University who:

1. is a Vice President with responsibility in an area relating to the subject matter of the delegation; or

2. is a manager with responsibility in an area relating to the subject matter of the delegation who reports directly to a position at or above the level of Vice President; or
3. holds a position at the University that is equivalent in seniority or responsibility to a Vice President or such manager, as determined by the President or the Vice President for Human Resources; or

4. is deemed by the President to have the appropriate capabilities,

provided that the delegation specifies the date of the delegation, the name and title of the delegate, the particular authority or portion of authority being delegated and a copy of such delegation is filed with the delegate and with the Vice President and General Counsel of the University, and a summary table of the delegations is provided to the Board of Trustees. Although the president may re-delegate to appropriate officials, the president retains the final authority and responsibility for the administration of the university and may condition, limit, or revoke any delegated signature authorities at any time. Authorities the President reserves may not be exercised by any other person, unless expressly authorized by administrative policy or presidential directive.

(k) Initiate and settle lawsuits and claims and appeal adverse rulings when doing so would be in the best interests of the University. Notice and reports referenced below may be oral. (Note: settlement ranges are likely to vary depending upon the size and complexity of the university. For discussion purposes, we are including several different thresholds).

1. For settlement of claims up to $100,000/$500,000/$750,000, the President or designee may take action.

2. For settlement of claims greater than $100,000/$500,000/$750,000, but less than $250,000/$750,000/$1,000,000, the President or designee may take action after consultation with the Chair of the Finance Committee or the Chair or Vice Chair of the Board of Trustees, as appropriate.

3. For claims above $250,000/$750,000/$1,000,000, the President will consult with and seek the approval of the members of the Finance Committee/or alternatively confer with the Chair and notify the Vice Chair of the Board of Trustees (Proposed UF language). The President or designee shall notify all Trustees about settlements at or above $250,000/$500,000/$750,000/$1,000,000.

(l) Perform such other duties as are not retained by the Board of Trustees and as may be necessary or appropriate for the administration of the University, in compliance with any applicable laws, Board of Trustees and Board of Governors’ regulations, policies, and resolutions.

(m) Nothing in this regulation should be construed as limiting or divesting the Board of Trustees’ right to exercise any authority or responsibility as deemed appropriate.

(n) If any additional contract or other matter of the University, a direct support organization, or other University affiliated entity, beyond ordinary standards and not covered by specific standards, would be considered material to the University and/or a
direct support organization or University affiliated entity, including its resources or reputation, or would generate significant media attention, the President or designee is expected to confer with the chair of the Board and to notify the vice chair of the Board. Also, if any matter is expected to generate significant media attention outside of the ordinary course, the President is expected to notify the full Board of Trustees. The chair of the Board and the President shall collaborate over time to support their mutual understanding of this expectation, recognizing that there are judgments involved for both of them.
